Akash Sharma

Web developer

As an experienced frontend developer specializing in React.js, I excel in crafting robust and responsive web applications. With a deep understanding of JavaScript, HTML/CSS, and frontend design principles, I possess the expertise to translate client requirements into intuitive user interfaces. My passion lies in tackling complex challenges and delivering visually compelling solutions of the highest quality.

Work Experience

Frontend Developer (Intern)

07/2022- 12/2022

- Worked closely with senior developers to translate design mockups into responsive web designs using HTML, CSS, and JavaScript.
- Assisted in the development and maintenance of user interfaces for various web applications, ensuring consistency and usability across different platforms and devices.
- Collaborated with the design team to provide input on UI/UX improvements and enhancements.
- Participated in code reviews and provided feedback to improve code quality and performance.
- Worked in an agile environment, effectively managing tasks and priorities to meet project deadlines.

Freelance Developer

2021- Present

- Developed custom front-end solutions for various clients, specializing in responsive and dynamic website design.
- Leveraged expertise in HTML/CSS, JavaScript, React.js, and other front-end technologies to create visually appealing and functional user interfaces.
- Collaborated closely with clients to understand project requirements and deliver tailored solutions that meet their objectives.

Personal Projects

2021- Present

1. **Zomato UI Frontend:** Showcased modern frontend techniques with dynamic tabbed navigation and modularized components styled to mimic Zomato's branding.
2. **React E-Commerce Multivendor Application:** Included customer and seller modules for searching, buying, cart management, order placement, seller registration, item addition, order tracking, and order management.
3. **Ticket Management React App:** Facilitated client queries via a web portal, with functionalities for raising requests, resource assignment by admins, and ticket resolution and closure by support staff.

Educational Background

Bachelor of Technology (B Tech) (71%)

Inderprastha Engineering College, Ghaziabad
2018 - 2022
